Overview:
This ECHO (Extension for Community Healthcare Outcomes) is comprised of a group of experts assembled to help care teams in Nebraska address complex issues related to addiction and pain.

Target Audience:
Our target audience continues to be all health care providers (physicians, physician assistants, nurse practitioners, registered nurses, psychologists, licensed mental health therapists, social workers, and licensed alcohol and drug counselors) in the state who treat patients that have pain and/or substance use disorders, involving opioids primarily.

Educational Objectives:
- Summarize evidence based emerging technologies for identifying and tracking treatment for SUDs and Pain Disorders
- Analyze technology options specific to Nebraska

To participate and register: Register for this ECHO call by Jan. 21, 2022
